Supervisor Gates and Maricopa County are updating the 1999 New River Area Plan. There will be several public meetings to gather community input, the first on November 7th. Additional meetings will be held in mid-December and in late winter/early spring of 2019.

This will be a forum for the entire community to identify issues, voice concerns, and develop a collective vision that will continue to make the New River/Desert Hills area unique. The Area Plan Update will provide strategies that promote responsible community growth while identifying the common values of the residents.

Visit [Maricopa.Gov/NewRiverAreaPlan](http://Maricopa.Gov/NewRiverAreaPlan) for meeting dates, Area Plan Update progress, additional information, and to complete the short community survey. We value your input!
